A Message from Sign Experience Canada Chair

Sign Experience Canada is more than an industry gathering. As one 2025 attendee put it, “Sign Experience Canada is a statement of innovation, craft, and community.” Another shared, “The new conference-style format truly elevated the event—a milestone moment. I can’t wait for next year.”

Over the past two years, we’ve gathered extensive feedback from attendees, sponsors, and exhibitors. What we heard was clear: our industry values purposeful networking, practical education, and events that respect the time and investment of both sign companies and suppliers.

In response, we launched Sign Experience Canada in 2025 and will continue refining the conference format in 2026. One of the key insights from our inaugural year was the value of being even more intentional with how time is structured—ensuring attendees can fully engage in education sessions, meaningful networking, and have dedicated time on the exhibit floor. Our focus is on designing an experience that encourages real business outcomes and purposeful connections, while preserving the strong sense of community that defines our industry.

In 2026, the agenda will reflect this feedback with more clearly defined time blocks that create space for deeper engagement across all aspects of the event. Supplier members play a critical role in this ecosystem, and Sign Experience Canada is designed to foster authentic brand interaction—connecting you directly with decision-makers and end users in a focused, high-quality environment.

I am excited to welcome the industry to Calgary from September 16–18, 2026. This will be the first time we bring the Association’s flagship annual event to Western Canada, ensuring members across the country have the opportunity to attend closer to home and strengthening our national perspective. Thank you for your continued support and engagement. I look forward to seeing you in Calgary.

Susan Svetelis, Chair, Sign Experience Canada
